

DECADE® Equine feeds are a high-quality line of feeds scientifically formulated to meet the needs of your horse in all phases of its life. These feeds have been designed to enhance performance, growth, energy, digestion and absorption of nutrients.

All Poulin Grain DECADE® feeds contain:

NEW A unique blend of pro/pre/post-biotics combining 3 Bacillus spore strains to reduce inflammation, stop harmful pathogens, and kill harmful "bugs" affecting well being and peak performance.

Live cell yeast that aids in digestion and absorption of nutrients, and organic, bioavailable minerals that provide increased resistance against stress and disease.

100% organic selenium and increased levels of vitamin E to support health and immune function.

Now Featuring Chromium for increased glucose utilization and improved immune function, growth, and overall health.

Increased amounts of calcium, phosphorus, vitamin A, vitamin E and lysine to better compliment Northeast forages.

FEEDING RECOMMENDATIONS

Feed with a good quality hay (1.5-2 lbs/ 100 lbs of body weight), free choice salt and fresh, clean water.

Divide feed into a minimum of two equal feedings. Never feed more than 0.5 lbs of grain per 100 lbs body weight (5 lbs for a 1000 lb horse) in a single feeding.

The amount of grain fed to any horse will vary depending on forage quality and availability in addition to the animal's weight, body condition, activity level and age.

All dietary changes should be made slowly over a period of 10-14 days.

If your horse has dental problems or trouble swallowing, this product can be soaked in water to achieve a soup-like consistency before feeding.

If you would like to have your horse's diet evaluated to ensure it is balanced for all critical nutrients, please contact your Poulin Grain feed specialist.

EQUINE FEEDS

Poulin Grain offers complimentary forage testing and diet balancing.

Work with one of our nutrition specialists to:

- ☒ Evaluate your animal's overall body condition
- ☒ Have your forage analyzed for nutritional components
- ☒ Balance your horse's diet for optimum nutrition

POULIN GRAIN
Leading Animal Nutrition

X-PERT (Regular + Super Bites)

A pelleted feed formulated to meet the nutritional needs of heavily worked performance horses, pregnant mares and young growing horses. Contains Ca+RE EQ™ marine derived calcium for superior gastric buffering, improved bone density and repair, reduction in joint inflammation, and reduced overall stress.

X-OVER (crossover)

A high-quality, high-fiber pelleted feed that provides balanced nutrition for horses at every life stage—ideal for when forage is limited.

X-ENERGY

Our highest-energy pelleted feed, formulated to fuel peak performance across a wide range of horses – built for the demands of professional horsemen.

FIBER-X

A high-fat, beet pulp-based textured feed formulated with highly digestible fiber to provide essential nutrients for maintenance, performance, and breeding horses and ponies.

RACE-X

A high energy, beet pulp-based, protein rich textured feed with enhanced flavor to make it more palatable. Contains a complex balance of ideal energy and protein sources, formulated to maximize athletic performance in training and in competition.

RENEGADE-X

A high-calorie, high-fat, textured feed, ideal for active and performance horses, as well as adult horses in training. With ExpandaTherm™ Barley to uniquely unleash nutrients in the most digestible form possible.

X-PEDITION

A high quality feed that provides essential protein, minerals and vitamins to mature, active and idle horses. A good option for maintenance and performance horses with limited access to hay.

FORAGE EXTENDER

Formulated to provide essential quality fiber in the horse's diet. May be used to replace up to half the forage in an animal's diet on a pound for pound basis. Available in mini-bites (standard) and super bites (large pellet).

CALORIE-PLUS

Sugar- free dry fat supplement for horses, designed to provide cool energy (calories) for weight gain and exercise performance. A palatable and easy to handle alternative to oils for all types of horses. Available in 6 lb or 15 lb bag.

GIT ACTIVATOR

Direct fed microbial probiotics, prebiotics, and enzymes to activate optimum gastrointestinal health. 1 lb bags. See website for analysis.

*These products do not contain the same set of features as Decade feeds. See poulingrain.com for analysis, ingredients, and features.
