

FORAGE SAMPLE SUBMISSION FORM

COLLECTING A HAY SAMPLE:

1. Take a hand sample:

- Small bales- Reach inside 6 to 10 bales and remove 1 handful of forage from each.
- Large bales - Reach inside 6 to 10 bales and remove 2 to 3 handfuls of forage from different locations inside each bale.

2. Chop the samples into 2-3" pieces

3. Combine all samples in a bucket and mix thoroughly.

SUBMIT A HAY SAMPLE:

4. From the mixed sample in your bucket, fill a quart sized ziploc style or forage sample bag with the hay. Too much is better than too little.

5. Complete the form below and include with your sample.
