

E-TEC[®] **NEW!** SENIOR LOW CARB COMPLETE

A super premium complete feed that does not contain grain or molasses.

Designed for mature horses with carbohydrate sensitivities and problems chewing.

Can be fed without additional forage.

LIVE CELL YEAST

Stabilizes bacteria, stimulating digestion and nutrient absorption and improves gut health.

100% ORGANIC SELENIUM & NATURAL VITAMIN E

Powerful antioxidants significant in boosting immune function.

OMEGA 3 FATTY ACIDS

Enhanced levels to aid in anti-inflammation and muscle recovery.

ORGANIC TRACE MINERALS

For increased absorption and utilization of nutrients to improve resistance to disease and stress.

Ca+RE EQ[™]

Algae derived calcium source for superior gastric buffering, improved bone density and repair, reduction in joint inflammation, and reduced overall stress.

CHROMIUM

For increased glucose utilization and improved immune function, growth and overall health.

LOW CARB FORMULA

Guaranteed low starch and sugar feed for carb sensitive horses

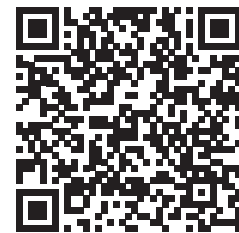

FRESH, FIXED FORMULAS

Fixed formulas manufactured fresh in our northeast based, family owned feed mill. Fresh feed translates to better palatability.

E-TEC[®] SENIOR LOW CARB COMPLETE

FEEDING GUIDELINES

Feed according to the following chart along with free choice salt and fresh, clean water. If you would like to have your horse's diet evaluated to ensure it is balanced for all critical nutrients, please contact your Poulin Grain feed specialist.

AMOUNT TO BE FED PER DAY

TYPE OF HORSE	POUNDS TO FEED PER 100 LBS OF BODY WEIGHT	POUNDS TO FEED FOR A 1000 LB HORSE
Senior Horse	1.2 - 1.5	12 - 15
Adult Mature Horse		
Maintenance	1.4 - 1.8	14 - 18
Carbohydrate Sensitive	1.2 - 1.6	12 - 16

For horses that can still properly chew and swallow long stem hay:

Feed 0.5-1 lb of high-quality hay per 100 lbs body weight per day, in addition to Senior Low Carb Complete.

For horses with chewing difficulties, or worn or missing teeth:

Senior Low Carb Complete should be soaked in water until softened to a soup-like consistency before feeding.

For horses that are aggressive eaters or new to consuming complete feeds:

It is recommended to soak Senior Low Carb Complete in water until softened to a soup-like consistency.

FEEDING RECOMMENDATIONS

Divide feed into a minimum of two equal feedings.

The amount of grain fed to any horse will vary depending on forage quality and availability in addition to the animal's weight, body condition, activity level and age.

All dietary changes should be made slowly over a period of 10-14 days.

If your horse has dental problems or trouble swallowing, this product can be soaked in water before feeding.

INGREDIENTS

Wheat Middlings, Soy Hulls, Dehydrated Alfalfa Meal, Soybean Oil, Flaxseed (Omega 3 Supplement), Beet Pulp, Calcium Carbonate, Salt, Calcite, D-alpha Tocopherol Acetate (source of Natural Vitamin E), Choline Chloride, Zinc Proteinates, Copper Proteinates, Manganese Proteinates, Selenium Yeast, Zinc Hydroxychloride, Manganese Hydroxychloride, Chromium Propionate, Copper Hydroxychloride, Niacin, Menadione Sodium Bisulfite Complex, Riboflavin, Pantothenic Acid, Vitamin A Acetate, Thiamine Mononitrate, Biotin, Cobalt Proteinates, Pyridoxine Hydrochloride, Folic Acid, Vitamin B12 Supplement, Vitamin D3 Supplement, Calcium Iodate, Mono-Dicalcium Phosphate, Live Cell Yeast Pack (Active Dried Yeast *Saccharomyces Cerevisiae*), Dried *Aspergillus Oryzae* Fermentation Product, Dried *Aspergillus Niger* Fermentation Product, Sodium Aluminosilicate, Dried *Bacillus Subtilis* Fermentation Product, Dried *Enterococcus Faecium* Fermentation Extract, Dried *Bacillus Licheniformis* Fermentation Product, Dried *Lactococcus Lactis* Fermentation Product, Dextrose, Sodium Silico Aluminate, Dried *Lactobacillus Acidophilus* Fermentation Extract, Dried *Bacillus Coagulans* Fermentation Product), DL Methionine, Yeast Culture, HCL Lysine, D-alpha Tocopherol Acetate (source of Natural Vitamin E), Sodium Saccharin, Silicon Dioxide, Natural & Artificial Flavors.Preservative Pack with Silicon Dioxide, Acetic Acid, Tartaric Acid, Propionic Acid, Benzoic Acid and Sorbic Acid.
