FEEDING GUIDELINES

ADULT MAINTENANCE HORSE

ONE	2.5-5 LBS
BALANCER	1 LB
FIBRE-MAX	3-5 LBS
CARB SAFE	4-6 LBS
SENIOR LOW CARB	4-6 LBS

For complete feeding guidelines, please visit our website at www.poulingrain.com.

FEEDING RECOMMENDATIONS

Feed with good quality hay (1.5 - 2 lbs/100 lbs of body weight), free choice salt and clean water.

Divide feed into a minimum of two equal feedings. Never feed more than 0.5 lbs of grain per 100 lbs of body weight in a single feeding.

All dietary changes should be made slowly over a period of 10-14 days.

If your horse has dental problems or trouble swallowing, products can be soaked in a small amount of water before feeding.

If you would like to have your horse's diet evaluated to ensure it is balanced for all critical nutrients, please contact your Poulin Grain feed specialist.

POULIN GRAIN 

E-TEC[®]

EQUINE FEEDS

ONE

Highly fortified pelleted formula with no grains or molasses, designed for horses at any life stage. (Former name: EQUI-PRO E-TEC).

BALANCER

A scientifically formulated pellet which balances nutrient profiles of unfortified grains and allows for feeding program flexibility and use of bulk grains. (Former name: EQUI-PRO MVP)

FIBRE-MAX

A high-fat, high-fiber textured super feed for performance horses that require high calorie intake but may be sensitive to grain rich diets.

CARB SAFE

A pelleted feed formulated for horses that are sensitive to sugar and starches, well-suited for overweight horses and those suffering from Cushings, Insulin Resistance, Tying Up and Laminitis.

SENIOR LOW CARB

A super-premium pelleted feed that does not contain grain or molasses, designed for the mature horse that is sensitive to sugars and starches.
